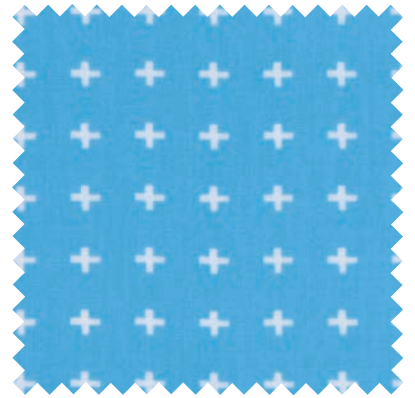

Figures is full of delightful and pleasing contrasts and delivers everything you expect from a well designed collection: It has a central motif, namely stenciled numbers; it has a color theme centered around variations of blue; it has range of hues from light to dark, and it has both large scale and small scale graphic patterns in the form of buttons, points and plus signs. Add to this some bright yellow groupings of abstract daisies and dandelions and you get a collection of graphic fabric designs that are urban chic, versatile and lots of fun.
