

WISHES

By Sweetwater

Wishes is all about the many celebrations of life- from birthdays and anniversaries to the birth of a new baby. The colors are bright and happy and the designs remind us of fun times. We were inspired by our own celebrations, both big and small. Each design represents part of the celebration. Our favorites include the colorful "wrapping paper", the cute flags from the "cake topper" and the gingham "tablecloth". Although we love all the colors in the collection, we are especially drawn to the blue. It is our new favorite color and we love how it pairs with red and green. We also love how the collection is geared to both boys and girls and we think it would make adorable baby quilts.
