SCISSORS SNIP SNIP SNIP MEASURE TWICE CUT ONCE

When you look up the word "spectrum" in the dictionary it is defined as a "band of colors, as seen in a rainbow, produced by separation of the components of light by their different degrees of refraction according to wavelength." We've taken a modified version of that and put it together to create our own Spectrum of color fabrics.

As you know... we do like our color over here at V and Co. So why not have a whole Spectrum of it in one collection?
