

Alexia is back with another installment in her super popular Warp & Weft yarn dyed woven series. She has included some new patterns, and brought back some favorites in new colors. She has also created seven new colors of her Cross Weave woven solid. The Workshop Twill, available in four colors, is a midweight twill perfect for lighter jackets and pants. Alexia also created two new solids and one new stripe of her Chore Coat fabric, a thicker yet breathable, nubby, squishy cotton. The remainder are varying shirting weights and appropriate for quilts and garments alike. When Alexia was designing this group it was the midst of lockdown, and she was inspired by dreams of future colorful parties and trips.
